

## Area Emergency Services Tower Funding Campaign Hosts Out Reach Forum and Picnic

On Saturday June 16<sup>th</sup> at the Inlet Emergency Services Building From Noon to 3PM the Inlet Emergency Services Communication Tower Fund Committee will host a Public Forum and Picnic for anyone interested in information about the tower project. Members of the Committee will be there to answer any questions about the need, impact coverage and costs associated with the proposed tower. The short Video created to help crowd source the campaign will also be shown. The need for a tower has been known for many years by the first responders from Eagle Bay, Inlet, Big Moose and Raquette Lake. The solution is centrally located mountain top emergency communications tower serving Inlet, Raquette Lake, Big Moose and Eagle Bay that can reach out broadly to the areas served. This will provide quicker response times for those in need and enhanced safety for our volunteers.

a

The formal funding Campaign went into full swing on Tues June 5<sup>th</sup> in hopes to reach a fund goal of \$350,000.00. Working in conjunction with the Town of Inlet, CAP-21 and Adirondack Gives. The committee is already off to a fine start as over **\$75,000.00** has already been pledged to move the project forward. For more information, or to make a charitable donation go to [adirondacktower.org](http://adirondacktower.org).
